

RATES

A five-factor score that surfaces the highest-ROI tasks to automate first.

⚡ Human Spark

THE MODEL

R	Repetitive - how often it repeats; daily or weekly score highest.	0 - 2
A	Annoying - how much you dread it; tedium frees the most goodwill.	0 - 2
T	Time-consuming - how many hours a week it eats.	0 - 2
E	Error-prone - how easily mistakes creep in.	0 - 2
S	Scalable - whether you would do more of it if it were faster.	0 - 2

READING THE SCORE

8-10 immediate pilot · 6-7 second month · 5 or below park it.

After filtering for risk, to choose between candidate tasks.
