

Risk Zones

A traffic-light filter for where it is safe to start with AI.

⚡ Human Spark

THE MODEL

● Green

Internal, text-heavy, verifiable, low-consequence. Start here.

● Orange

Higher stakes but still internal - decisions, forecasts, calculations. More verification.

● Red

Customer-facing or safety-critical. Not a first pilot.

NOT SURE?

Ask two questions: who sees the output, and what happens if it is wrong?

The first step in choosing a pilot -
filter first, score second.
