

The Model Selection Matrix

For boring text work the top models are roughly interchangeable.

THE MODEL

Everyday workhorse

MOST TASKS

Drafting, summarising, extracting. The leading models are close - pick one and learn it.

Reasoning model

ADVISOR WORK

Strategy, analysis, hard problems. A different class - slower, deeper.

SHORT SHELF LIFE

Model capabilities change monthly - treat any comparison as a snapshot, not a verdict.

Tool selection, when someone assumes they must pick 'the best' model.
